* 42 Watt PLT Lamps

We have experienced several issues with premature lamp and ballast failures on Pace products incorporating PLT 42 watt lamps, particularly multiple lamps and high ambient temperature applications.

We are currently engaged in discussions and research with our ballast suppliers and with the lamp manufacturers to determine the cause. They have tested some 42 watt lamps and have found them to be unstable and running at a much higher temperature and wattage than the specifications published by the lamp manufacturer.

Until this issue is resolved, we recommend to our agents and their customers the use 32 watt lamps. Our tests have found them to provide the same or higher light levels when lamp and ballast degradation is taken into consideration.

Pace Illumination Corp. will keep you updated on further developments with this issue.

TERMS AND CONDITIONS
.....

FREIGHT Pace Illumination reserves the right to charge freight extra to remote locations in all Territories and Provinces in Canada, Alaska, Hawaii, Puerto Rico and all other remote Protectorates in North America.

All poles and anchorage are shipped freight extra.

PACE reserves the right to route all shipments on prepaid freight shipments. Shipments will be made via express, air, or any other manner requested, when the customer assumes the freight costs over and above the least expensive routing selected by PACE. Authorization in writing is required from the customer.

CLAIMS Title of ownership transfers to purchaser upon delivery to the transportation company. The transportation company assumes responsibility when shipment is picked up at factory dock. Inspect goods upon arrival. All claims for shortages or damages during transportation to be made against the delivering carrier. All other claims, including missing components, must be submitted to PACE within 15 days of receipt of shipment.

DELIVERY The scheduled delivery from PACE is the best approximation of the expected shipping date, but is not a guaranteed shipping date. PACE shall not be responsible for any direct or indirect damage or loss resulting from delay in shipping. Time of delivery is not the essence of this agreement.

RETURNS Standard products may be returned only with written consent from PACE. Return shipments must be in original cartons, with a copy of the Return Authorization document, freight prepaid. All returns are subject to a minimum of 25% restocking charges, plus any reconditioning costs. Returns due to defective products must be returned for testing, with written consent from PACE. Custom products are non-returnable.

WARRANTY All PACE products are carefully inspected and tested before shipping, and are warranted to be free of material and workmanship defects for a period of two years from date of invoice. Claims must be submitted in writing to the factory.

PACE will not accept charges for any labor, repair cost or transportation charges without expressed, prior written authorization. The responsibility of PACE for any defective materials is limited solely to the replacement or repair of material, and does not include any incidental or consequential damages which may be incurred. No warranty, expressed or implied, exists other than that described above. No person, agent or distributor has authority to give any other warranty on behalf of PACE.

BALLAST/LAMP WARRANTY Ballasts, lamps and transformers supplied in PACE fixtures are those of recognized responsible manufacturers. Brand specific ballast, transformer or lamp requests will be handled by quotation only. Claims for defective ballasts, lamps or transformers should be made directly to the appropriate manufacturer through their local service center or field representative. Any labor charges for replacement of defective ballasts, lamps or transformers will not be accepted by PACE. A copy of the O.E.M. standard replacement program is available upon request.

QUOTATIONS Quoted prices are valid for 60 days and are subject to change upon receipt and review of approval drawings.

PRICE All prices are subject to change without notice. Prices exclude all taxes and freight where applicable.

CANCELLATION CHARGES Modified fixtures are non-refundable, and non-cancellable, unless written approval is issued by PACE. Changes to, or cancellation of works in progress will be subject to costs incurred for work completed.

MINIMUM BILLING ADDITIONS Minimum billing is \$200.00 net per order. Replacement parts are exempt. Additions to orders already received and entered into production be considered as a new order.

TERMS Terms are net 30 days.

ACCEPTANCE OF ORDERS All orders must be signed off on the cut sheet before the job will be released. All orders are subject to PACE's final approval.

DESIGN CHANGES PACE Illumination Corp. reserves the right to change product design, and/or catalog information without prior notification.

ESCALATION OF HOLD ORDERS Unless otherwise agreed upon, all prices are firm for delivery within six months of receipt of order at PACE. PACE reserves the right to review and adjust pricing as necessary to reflect increased costs of goods on Hold Orders older than six months.

SALES TAX All taxes extra where applicable.
